

Preceptorship

In pursuit of excellence

Mersey Care
NHS Foundation Trust

Community and Mental Health Services

Mersey Care is leading the way with our excellent preceptorship package which is supported by experienced staff in all of our disciplines.

The package includes:

- A validated competencies framework, equipping you with knowledge of the expectations of your role, so that you can develop as a competent practitioner
- Structured learning sessions, with information delivered by key practitioners and experts by experience in elements of practice tailored to your specialism or service area
- Peer and pastoral support to encourage reflection
- Career development conversations to help shape your career to your strengths and interests.

Our preceptorship programme is available to:

Healthcare practitioners

(registered nurses, midwives and allied health professionals) who have completed a pre registration programme of study and have started employment within the UK for the first time.

Practitioners who have been educated overseas and are newly admitted to the relevant UK professional register.

Returning to practice registered healthcare practitioners following a significant period of absence.

If you'd like further information about Mersey Care's preceptorship programme, please email: Preceptorship@merseycare.nhs.uk

At Mersey Care, we value our staff and want everyone to align to our values of:

Continuous improvement

Accountability

Respect

Enthusiasm

Support

In supporting you to make the transition into your new role, we will encourage your enthusiasm and commitment to improving patient care, recognise and respect the new perspectives you bring and welcome the challenges and new solutions you will share as we strive to deliver person centred care.
