

IMPROVING WORKING LIVES

The Cheshire and Wirral Partnership NHS Trust aims to become a model employer and has already achieved IWL Practice Plus. This means that we would like to become an employer of choice for local people and those thinking of relocating to Cheshire and Wirral. We are proud of what we can offer staff to improve their working lives and listed below are just a few of the benefits already available to staff. We realise that we still need to do more and by listening and working in partnership with staff we are developing further initiatives to support our recruitment and retention strategies.
