

## Band 5 Advert

### Job overview

An exciting opportunity has arisen within the Cardiac Catheter Labs for a Band 5 Staff Nurse to join our dynamic and friendly team. If you are enthusiastic, flexible and passionate about cardiology then this would be an ideal opportunity for you to join our team and gain experience of interventional procedures.

As the successful candidate, you will be expected to work across both Northwick Park and Ealing Hospital sites, within these 2 sites there are three Cardiac Catheter labs and a day care unit on each site.

There are exciting changes happening across the 2 sites:-

- Ealing hospitals Cardiac Catheter Lab is currently being refurbished and the brand new lab is due to open in August 2022 where they will provide both an inpatient and outpatient service for cardiac interventional and diagnostic procedures.
- At Northwick Park one of the labs will be opening later in the evening giving staff the opportunity to work more flexibly with different shift start and finish times. There is also going to be the introduction of weekend working as part of the substantive job which will enable the introduction of unsocial hours into this role. We are also in the planning stage of providing a 24/7 service which will enable the successful candidate to be part of an on call rota for cath lab emergencies.

The successful candidate must have excellent communication skills and work well as part of a multi-disciplinary team and have the ability to work under pressure and be interested in personal development.

The Cardiac Cath Lab carries out many procedures, including Transoesophageal Echo's, DC Cardioversion's, invasive angiography and angioplasty, (including CTO's), Valvuloplasty, EKOS and insertion of devices such as Implantable loop recorders, pacemaker and Biventricular pacemakers. As the work is varied in all the cardiac cath labs there is a plethora of opportunities for the development of knowledge and skills for the successful candidate.

Working for your organisation

London North West University Healthcare NHS Trust (LNWH) cares for the people of Brent, Ealing, Harrow and beyond.

Our team of more than 8,200 clinical and support staff serve a diverse population of almost one million people.

We run major acute services at:

- Northwick Park Hospital: home to one of the busiest emergency departments (A&E) in the country. The hospital provides a full range of services including the country's top-rated hyper-acute stroke unit and one of only three hyper-acute rehabilitation units in the UK
- St Mark's Hospital: an internationally renowned specialist centre for bowel disease
- Ealing Hospital: a busy district general hospital providing a range of clinical services, as well as 24/7 emergency department and urgent care centre, and specialist care at Meadow House Hospice
- Central Middlesex Hospital: our planned care site, hosting a range of surgical and outpatient services and collocated with an urgent care centre.

We are a university teaching NHS trust, in recognition of the important role we play in training clinicians of the future and bringing the benefits of research to the public.
